

IA HARDWARE

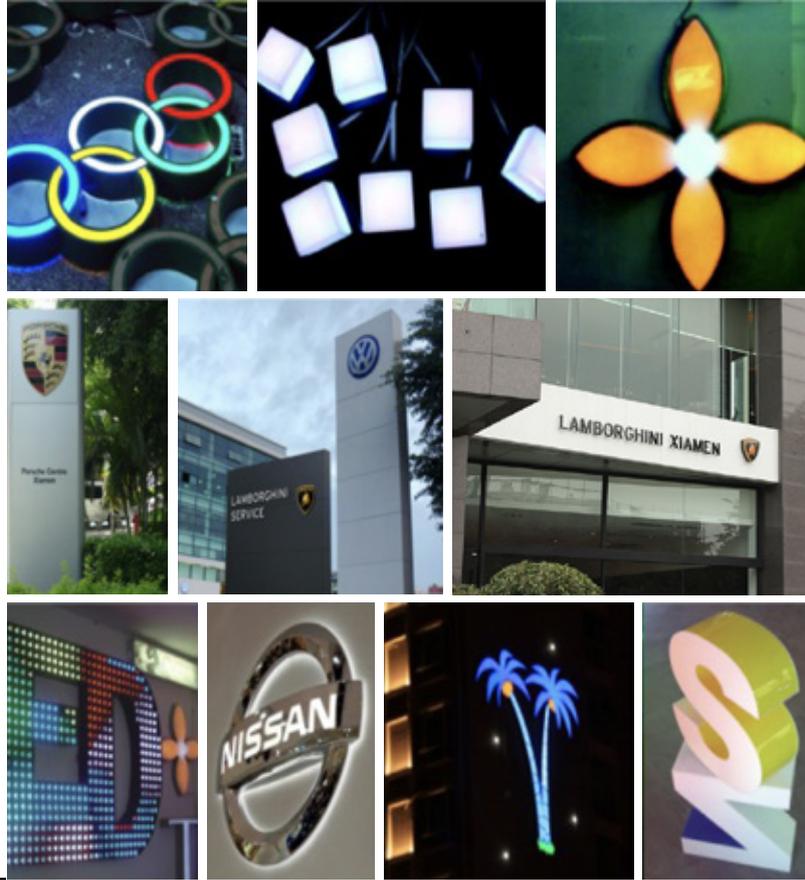

ABOUT

Retail is a fast evolving industry and the commercial supply of good quality products is essential in maintaining a smooth operating retail business. Over the past decade IA Hardware has been developing relationships in the Resort, Hospitality, Commercial, Aged Care and Education sector with the aim to deliver high-end and bespoke joinery, fixtures and products to ensure our clients' business targets are met.

In order for this to be achieved, we have established operations from Xiamen China with the purpose of supplying customised hardware at a competitive price range. In the process, we have developed a strong partnership with exclusive high quality suppliers and is now made available for you through IA Hardware.

Furthermore, we are scheduled to launch our extensive product catalogue in the next twelve months in the interest to provide an access opportunity for you and your business.

OUR FACTORY

Located in Xiamen, China, our factory covers an area of 5000 square meters and is equipped with the most advanced facilities and various production machinery such as CNC carving machine, large acrylic blister machine, laser engraving machine, 25T punching machine, polishing and spray paint machine as well as operating custom design room; sculpture workshop, plastic workshop and resin plant workshop.

SIGNAGE

Illuminated signs work day and night to draw attention and shopfront visibility to deliver maximum impact for your brand exposure.

There are many options available - LED, Neon, Backlit, 3D Individual Lettering and Light Boxes.

Non-Illuminated Signs are typically much more cost effective and can be installed in locations that may not have electrical access or where illuminated signs are not permitted.

EPOXY RESIN LETTERS

Our latest range in illuminated sign, the LED epoxy resin letter is the perfect combination of modern electronic technology and macromolecule technology. It's popular due to its unconstrained material use, unlimited size range, elegant looks, bright colours and can be widely used in airports, hotels and fashion stores.

PARAMETERS:
